CSR Projects

(Corporation Social Responsibility)

The term corporate social responsibility (CSR) refers to practices and policies undertaken by corporations that are intended to have a positive influence on the world. The key idea behind CSR is for corporations to pursue other pro-social objectives, in addition to maximizing profits. Examples of common CSR objectives include minimizing [environmental externalities](#), promoting volunteerism among employees, and donating to charity.

In this regard Sr Marcella the executive Director made an effort to meet Mrs Syalu Mohan at Karnataka, to discourse and to get in to this Project effectively. Section 80G of the Income Tax Act, allows us to claim tax benefit on donations made to charitable institutions and specific relief funds. However, not all donations are eligible for deductions under section 80G. We can gain donation tax rebate under Section 80G for donations made to the institutions or relief funds which are prescribed for tax exemption. The donations in section 80G are eligible for deductions of up to either 100% or 50%. In this regard we had applied for 80G witch is very much needed for CSR application.
